

POST-DOCTORAL POSITION AT THE PHYSICS INSTITUTE, UNIVERSITY OF ZURICH,
SWITZERLAND

We invite applications for a post-doc position at the Physics Institute of the University of Zurich to work on topics related to gravitational waves, general relativity or gravitational microlensing within the group of Prof. Philippe Jetzer. Our research activity is focused on gravitational waves, particularly in connection with eLISA, on topics related to tests of general relativity within the framework of the proposed STE-QUEST satellite and on gravitational microlensing.

Duration: two years, starting fall 2016
Send CV, research interests, as well as arrange for 3 letters of recommendation to be sent to:
jetzer@physik.uzh.ch

Address: Physics Institute
University of Zurich
Winterthurerstrasse 190
CH-8057 Zurich (Switzerland)

(see also: <http://www.physik.uzh.ch/groups/jetzer/index.html>)

Deadline for applications: January 15, 2016
