# Scientific Programming with Python

A close-up photograph of a green snake, likely a Python, coiled. The snake's body is a vibrant green with darker green or black spots. Its head is turned slightly, showing its eyes and mouth. The background is dark, making the green scales stand out.

**A course about modern techniques for scientific  
programming based on Python**

**Campus Irchel**

**1st course:**

**June 8 – 11, 2015**

**2nd course:**

**June 15 – 18, 2015**

**Information and application (deadline: March 31, 2015) at**

**[www.physik.uzh.ch/~python](http://www.physik.uzh.ch/~python)**

**Hosted by the Physics Institute, UZH**
